

eScreen Instant Drug Testing

CorpOHS has entered into a partnership with eScreen, Inc. to become an active member of the eScreen Occupational Health Network (EOHN). eScreen is the developer, manufacturer and the marketer of the eScreen Drugs of Abuse Screening System. eScreen offers the first instant, automated, on-site drug testing device which provides negative results within minutes. eScreen's system uses advanced proprietary technology including the eCup (TM logo) and the eReader (TM logo) and is able to perform the function of the EMIT laboratory screening at the point of sample collection. These devices meet the forensic criteria set forth by COMAR 10.10.10. The eScreen family of products includes the MyeScreen.com application, which enables customers to instantly access and manage employee test results in real time via the internet.

The partnership between CorpOHS and eScreen creates powerful product and service options of local companies seeking to incorporate workplace drug testing into their organizations. It also provides instant testing alternatives for those who want to enhance their current programs and protocols.

The State of Maryland only allows instant drug testing for pre-placement testing. All other types of testing (random, post accident, etc.) will need be collected and sent to a certified lab. Also, in the State of Maryland, employers must register with the State of Maryland Office of Health Care Quality at the address below:

Laboratory Testing – EDT Registration
Office of Health Care Quality
Spring Grove Center – Bland Bryant Building
55 Wade Avenue
Catonsville, MD 21228

Phone: Cheryl Sloan 410-402-8025
