

## **Carroll OHS Welcomes Dr. Consagra**

CorpOHS is pleased to announce that on May 1, 2006 Dr. Genine Consagra will begin seeing patients at Carroll Occupational Health Services. Dr. Consagra will be returning from a four month tour of duty in Afghanistan with the Maryland Army National Guard Medical Unit. Prior to this deployment, Dr. Consagra worked for CorpOHS at the Frederick facility. She has also served our country in 2005 with the Army National Guard in Iraq.

Some of our clients in Westminster may remember Dr. Consagra from her past association with Dr. Middleton in Westminster. Dr. Consagra is a board certified and residency trained family practitioner with experience in occupational medicine. She went to medical school at the Philadelphia College of Osteopathic Medicine and completed her training at the Dwight D. Eisenhower Medical Center at Fort Gordon, Georgia.

Dr. Consagra will be joining Dr. William Houk, Dr. Stephan Mann and Robert Kehler PA-C in providing a full range of occupational health services at the Westminster facility.
